

To install and run **MoversSuite v4.1**, a workstation and network must meet certain requirements. The following sections detail the minimum hardware and software infrastructure needed to operate **MoversSuite v4.1** and related applications on a client, server(s), and related devices. High-speed internet access is highly recommended to facilitate installs and to run Terminal Services for **MoversSuite** customer support.

## Hardware Requirements

The following section lists the different hardware requirements for the client and server.

### Client Machine

- Pentium III 1.2 GHz minimum
- 256 MB memory minimum (512 MB or more recommended)
- 250 MB free disk space

### Database Server

A dedicated database server for **MoversSuite** and Microsoft Dynamics GP is strongly recommended.

- Dual Pentium IV 2.4 GHz
- 2 GB RAM (4GB RAM recommended)
- RAID 0 minimum (RAID 5 recommended)
- 20 GB free disk space
- Tape backup device strongly recommended (although not required)

### Terminal Server

**MoversSuite** provides the following recommendations when running **MoversSuite** and/or Microsoft Dynamics GP through a terminal server.

**Note:**

**MoversSuite** requires Terminal Services when providing **MoversSuite** or Microsoft Dynamics GP over a WAN.

While no exact benchmark exists, the **MoversSuite** application is approximate 200 MB per open user session. The amount of memory needed per user session could increase depending on other applications running in conjunction with **MoversSuite** on the terminal server, such as Microsoft Dynamics GP, Microsoft Office, van line interfaces, QuickMove/TechMate, etc.

**Note:**

For specific information on scaling, please refer to related help topics for Microsoft Windows Server.

### Label Printer (Optional)

- Label printer capable of printing 1 inch high by 3.5 inch wide labels

### Dot Matrix Printer (Optional)

- Dot Matrix Standard
- Okidata 320 / 320 Turbo / 420 / 520 (using standard Okidata driver)

## Software Requirements

The following section lists the different software requirements for the client and server as well as optional, collaborative software tools.

### Client

- Member of Active Directory Domain
- Supported Operating Systems (32-bit or 64-bit) \*:
  - Microsoft Windows 7
  - Microsoft Vista
  - Microsoft Windows Server 2008
  - Microsoft Windows XP Professional (Service Pack 2)
  - Microsoft Windows 2000 (Latest Service Pack)
- Internet Explorer 6.0 (*Recommended version: IE 8.0*)
- Microsoft .NET Framework 4.0
- Microsoft Web Deployment Tools 1.1
- ASP .NET MVC 2
- Adobe Acrobat Reader 6.0

**Optional:** Microsoft Office 2000-2007 (Microsoft Word, Microsoft Excel and Microsoft Outlook) with the OLE Integration for Office Components installed.

\* Microsoft XP Home is not compatible

### Database Server

- Supported Operating Systems:
  - Microsoft Windows 7
  - Microsoft Windows Server 2008
  - Microsoft Windows Server 2008 R2
  - Microsoft Windows 2003
- Supported Database Servers:
  - Microsoft SQL Server 2008
  - Microsoft SQL Server 2008 r2
  - Microsoft SQL Server 2005\*
  - Microsoft SQL Server 2005 Reporting Services\*
- Microsoft Internet Information Server (IIS) 6.0

\* With latest Service Pack

### Collaborative Tools

*Optional:*

- Any internal SMTP email system can interface with **MoversSuite** providing automatic notification of events related to a move.
- Microsoft Exchange 2003-2007 will be needed to access online calendars and scheduling functions that are integrated with **MoversSuite** lead generation functions.

### Supported Third Party Applications

- IGC QuickMove Version 6.4.244
- TechMate FirstMate Version 3.1.139
